Life **Engineered.**

Bifold Doors

Bifold doors in uPVC, Aluminium and Schüco Aluminium.

Bifold doors offer the perfect house to garden solution for many home owners. They really do open up a property and let the light flood in.

When opened, door sashes can be stacked back against a wall or into space that is not used.

Our comprehensive range includes low thresholds, which allow access to be low level between your home and garden, whilst also ensuring easy access for toddlers or wheelchair users.

We take your security seriously and fit Ultion Sold Secure Diamond rated cylinder locks to all of our KAT Bifold doors, the moment that Ultion detects tampering, it activates an attack lock directly into the central cam, this is 'Lockdown Mode.'

NEW 2016

03_ Schüco

Bifold Doors

ASS70FD

Schüco aluminium bifold doors are regarded as possibly the finest bifold doors money can buy. Every detail from the initial design, to how the doors are manufactured, culminating in the ultimate bifold door.

Where many other bifold door systems can be restricted in how they can be incorporated into the overall building design, Schüco doors offer a diverse range of design options enabling most design briefs to be met, particularly in terms of sash size and overall door scale.

Doors can be made taller and wider than other bifold doors, enabling you to create the largest glass panels for maximum light. Not just for the luxury high end homes, more homeowners are discovering the advantages of a Schüco door.

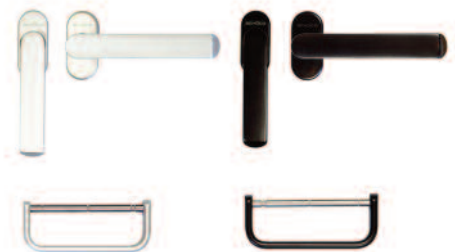

Features

- German engineering manufactured in the UK by KAT
- Choose from 3 standard colours from stock components:
 - Anthracite Grey matt
 - Black matt
 - White gloss
 Or any RAL colour, including dual colours on an extended lead time
- Door heights of up to 3m and 1200mm wide sashes
- Contemporary square bead
- Extra slim 120mm frame interlock
- Ultra light operation to open and close
- Door gasket design unique to Schüco
- Tested to DIN EN 12208 standard for watertightness and DIN EN 10077 standard for thermal insulation.

Options

- 4mm low threshold
- Trickle vent room ventilation

Handles available in:

- Anodised Silver
- Black

KAT take your security very seriously and fit Ultion cylinder locks to all our KAT Bifold doors.

Opening configurations:

There are many configuration options, the most popular of which are shown here. All designs are available as inward or outward opening. A max width of 6.6 metres can be achieved with a 6 sash ALuK bifold and 7.2 metres with a Schüco bifold door.

If you are looking for a contemporary look, have you considered having blinds fitted inside the double glazed unit?

Key features:

- Maintain privacy whilst allowing light in
- Wide range of colours
- Dust free, hygienic and maintenance free
- Made to bespoke sizes and fit perfectly within the 2 panes of glass
- Easy to operate
- 5 year guarantee for internal parts.
